Libra Star has its main office in Dubai,

UAE is the most active
construction
ideal trade
curre

UAE with Branches in Malaysia and Saudi Arabia. growth center in the region boasting a booming industry. Dubai's strategic location makes it an access point into and out of the region, and is ntlly home to many world class contractor, Consultants and multinational construction and development companies. This puts LIBRA STAR in and ideal position to provide products designed for world class standards of construction the latest in imported application and technologies, superior efficiency and all in record speed. Our warehouse facility keeps stock for immediate deliveries and ensures prompt and easy access for both local and regional needs.

Raised access floors are modular interchangeable floor panels supported on each of their four corners by an understructure system. They are usually installed on a floor concrete slab. While the understructure system is normally adhered to the floor, the panels themselves are removable, allowing easy access to all electrical and mechanical services housed underneath the raised access floor.

EXPERTISE

The combined expertise of over 50 year from the management, give an unprecedented advantage to LIBRA STAR. With an experience of over 4 million square meter of flooring installation, our expertise is unrivaled. This puts LIBRA STAR in a unique position to provide solution pre-construction, during construction and post construction, ensuring our clients meet their tight deadlines. LIBRA STAR is run under strict ISO quality management system, and ensure that its suppliers meets the highest standard of product delivery. **LIBRA STAR** team will work with you to provide the best Raised Access Flooring solution for the intended use.

Libra Star has the greatest selection of flooring solutions, including luxury SPC flooring in Dubai. All you have to do is tell us your needs, and we will bring the best and most durable flooring solutions to you.

LVT Flooring Offers Aesthetic Appearance To Your Floor

LVT Flooring Dubai is a type of hard surface flooring that can be used in both commercial and residential indoor applications. It can give the appearance of a genuine wood or stone floor in your space.

Everything You Should Know About LVT Flooring

LVT is an abbreviation for “Luxury Vinyl Tile.” Luxury vinyl tile flooring is well-known as the choice for commercial designers and industrial fit-outs. LVT floor’s ability to replicate designs to intricate detail is much admired as a robust yet versatile alternative to tile and hardwood flooring.

We provide LVT Flooring as a cost-effective alternative to displaying the character, look, and grain of wood flooring or the texture and feel of Italian slate tiles accordingly. Homeowners are increasingly interested in the fastest-growing market segment in the flooring industry.

- A. LVT is a less expensive alternative to other flooring products, bringing luxury to your home at a lower cost.
- B. Cleaning the LVT tile is simple. Because it is durable and protected, you can be a little rough
